

## Our Model

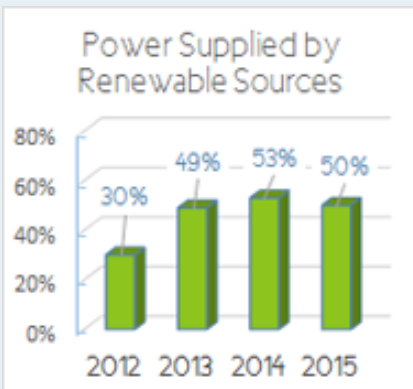

---

At Eyonix Systems we are dedicated to simplifying technology. Our services are a great value because they are flexible and provide on-demand scalability.

- We offer responsive technology services for people and businesses saving them time and money.
- We build our technology services to help people with any level of experience save time.

## Our Carbon Footprint

To lower the environmental impact while still providing stable cloud services, a solar photovoltaic solution was implemented in September 2012 to offset energy utilization.

A list of our services include:

- Network Integration
- Drive Destruction
- Online Backup
- Security Audits

## Drive Destruction

---

For Hard Drives (HDD),  
Solid State Drives (SSD),  
& Flash Drives

*Keeping an eye on IT essentials.®*

## Drive Destruction

Who needs to worry about destroying drives?

- Anyone using online banking
- Businesses & Non-Profits
- People who send, receive, or store sensitive data
- Government & Medical Offices

Our service complies with: the following standards

- HIPAA
- NSA
- HITECH

### Drive Destruction cont'd.

An important part of preventing private information from ending up in the wrong hands is to destroy old hard drives (HDD's) and solid state drives (SSD's).

Data stored on drives is still at risk even when the drive is no longer in use. Deleting files or formatting a drive does not guarantee the data cannot be recovered later. Professionally destroying these drives to NSA, HIPAA, and HITECH standards is the only way to be sure the data that once lived on these drives can never be recovered.

#### For Hard Drives (HDD):

- \* We degauss all drives to remove the magnetic charge which is how a HDD holds data
- \* Drives are physically crushed to break the platters inside

#### For Solid State Drives (SSD) & Flash Drives:

- \* Holes are physically punched through the drive to break up the chipsets inside

#### How the Destruction Process Works:

- \* [Add drives to your cart and checkout](#)
- \* Ship drives to us with your receipt number
- \* After drives are crushed we will email you a certificate of disk destruction

### Other Important Info

- Drives are stored securely until crushed
- All drives are destroyed in-house
- In most cases drives are crushed within 1 week

Number of Hard Drives, Solid State Drives, or Flash Drives	Cost
<a href="#">01</a>	\$22
<a href="#">02 - 05</a>	\$44
<a href="#">06 - 10</a>	\$69
<a href="#">11 - 20</a>	\$89
<a href="#">21 - 35</a>	\$159
<a href="#">36 - 50</a>	\$239
Request Pricing For Bulk Quantities	

Pricing is based on the number of hard drives, solid state drives, and flash drives submitted at a single time.
