

## Press Release

### Eyonic Systems, Inc. Announces New Hosted Telecommunications Partnership

Vacaville, California, July 17, 2015 – Eyonic Systems, Inc. is pleased to announce their joining of the [Crexendo Partner Program](#). Through this strategic partnership, Eyonic Systems, Inc. will now add the Crexendo Cloud Communications Platform to their existing portfolio of products and services.

The [Crexendo](#) Cloud Communications Platform, backed by over 200 years of combined telecommunications product and technology experience, offers a sophisticated enterprise-level feature set to businesses at a fraction of the cost of traditional communications solutions.

"We are very pleased to join the Crexendo family," said Chris Taylor, CEO, Eyonic Systems, Inc. "Providing the best products and services coordinated with outstanding customer service is what we do every day. We know that Crexendo will provide our customers amazing products and services at an incredible savings."

"On behalf of the entire Crexendo Team, we are extremely excited about the opportunity to partner with Eyonic Systems, Inc. which shares our passion in putting customers first. This partnership will bring tremendous value to Eyonic Systems, Inc. and their customers," said Doug Gaylor, Crexendo President. "Eyonic Systems, Inc. is a company that strives to bring innovative, cost-saving products and services to their customers, and we are proud to support them in carrying out this effort with our world-class, Cloud telecommunications offer."

#### About Eyonic Systems, Inc.:

Eyonic Systems is dedicated to simplifying technology. We offer a suite of responsive technology services for people and businesses with any level of experience to save them time and money. These services include network integration, online backup, drive destruction, and enterprise file sharing. Our services are built to provide the confidentiality, integrity, and availability people expect from technology services. Our services are a great value because they are flexible and provide on-demand scalability.
